

# OPTIMIZE YOUR FACILITY WITH GSA SCHEDULE CONTRACTS

**Southland Industries offers leading-edge solutions to optimize your facility through GSA Schedules (Multiple Award Schedules [MAS] or Federal Supply Schedules), long-term government-wide contracts for the procurement of supplies, products, and services.**

- Complete facilities maintenance and management
- Smart buildings system integration
- Ancillary supplies and services
- Order-level materials
- Energy consulting services
- Building management controls systems (BMCS) and data analytics
- Energy-efficient lighting and sustainable energy solutions
- Engineering and design services

## Your Valued Partner

Southland is your valued partner for energy projects and service work solutions. With extensive experience with various projects for federal clients, Southland offers multiple Special Item Numbers (SINs).

Southland can optimize your facilities to drive your success with the ability to respond to a wide range of needs with innovative, yet practical solutions. As an industry leader with expanded services under our GSA Schedule Contract and a collaborative cause, our solutions can support your mission.
